- **Top Apps & Software**
- **Firm with Million Dollar Verdict Experience**

We're a multi-million-dollar law firm, but have stayed a boutique, niche firm by choice: to offer all our clients the best representation, not just those with large case values.

Call / Text for Free Consult 470.350.8200

worst case scenario, you'll know your options.

Don't Tough It Out, Here's Why

Get checked out immediately by a medical provider who is experienced in collisions and knows what to look for (hint, they're NOT found at most ERs).

A week+ gap could provide insurance companies a reason not to provide coverage. If you're not seriously injured, that's great but if you are, you don't want to find out too late.

Concerned About Your Car?

Did you know it's normally just a small fraction of what collision victims are entitled to after an accident and many attorneys don't offer any assistance or charge a fee for it?!

Well guess what: We help our clients for FREE with their property damage!

We Litigate & They Know It

Did you know not all lawyers litigate (go to court)?

Insurance companies track lawyers by their tax ID numbers. They know, and track, which lawyers litigate and which do not.

Cases with non-litigation lawyers often settle for way less than their cases are worth as the insurance companies know the lawyer doesn't litigate and won't ever actually file a lawsuit themselves.

At the very least, educate yourself and understand your options. Find out what you should be compensated for and then decide to fight for your rights with an experienced, Multi-Million-Dollar Law Firm who can prioritize you.

Blade Injury Law specializes in Brain Injuries, Auto & Trucking Collisions in Georgia, Florida & Alabama.

L. Blade Thompson is among less than 3% of U.S. attorneys who are board certified in truck accident law.
